

Regulator(TG)

	Model	AC adjuster TG series	
	Capacity(VA)	single phase:1K-20K	three phase:3K-60K
	Input voltage	220V or 380V	
	Output voltage	0-250V or 0-430V	
	Function	It's no distortion for waveform, small cubage, small weight, high efficient, use conveniently, reliability function, adjust voltage, adjust speed and KVA rating at the same time.	
	Dimension and weight	Please contact agency and factory.
